

## Company Synopsis:

Yechte Consulting is your strategic partner in the construction industry for all-around drafting, modelling, graphical and IT solutions. We have over 10 years experience in Architecture, Engineering, 3D Visualisation and IT Programming. We deliver cost-effective CAD drawings, BIM modelling, 3D visualisations and virtual animations, as well as manageable staff resources.

## Service Offering:

We offer a wide range of services tailored for the construction industry:

1. **Computer Assisted Design** (CAD: Dwg, Dxf, Xref, Pdf, 2d, 3d)
2. **Building Information Modelling** (BIM: Massing, Modelling, Schedules, Layouts)
3. **3D Visualisations** (V-Ray, Mental Ray, Animations, Editing, Post-production)
4. **Information Technology** (Linux, Apache, Mysql, Php, Asp.Net)
5. **Web Development** (Ecommerce, Flash, Flex, Html, Xml, CSS, Java, JQuery)
6. **Mobile Development** (iOS, Android, BB, Symbian, Windows7)

## Added Value:

We offer tangible added value to our services:

1. RIBA AFFILIATION: part of a world renowned network, with understanding of the concept of “best practice”
2. EUROPEAN MANAGED: directors and managers conversant with western codes and regulations
3. SUSTAINABLE INITIATIVES: cutting down our carbon footprint and further reducing the price of our services
4. PERFORMANCE BASED REWARDS: motivating our staff members to unleash their full potential
5. INTERACTIVE CLIENT PORTAL: ability to follow the project’s advancement stages and budget at any time

## Benefits:

Our business model greatly reduces operational and production costs. We can ease the eventual staff shortage recurrent during periods of heavy workload:

1. Work with qualified Architects, Engineers and Programmers at competitive costs
2. Train and use your in-house staff on more productive and profitable jobs
3. Minimise stress inducing drafting and modelling procedures
4. Benefit from cutting-edge technologies at competitive costs
5. Focus on your design imperatives and increase your market share
6. Save up to 70% on your production information costs
7. Save training and recruitments related costs
8. Avoid tedious international employment laws
9. Minimise financial risks by monitoring your spending during the course of the development
10. Means to expand your team sizes on short notice

## Corporate Social Responsibilities:

We have established a series of in-house policies to minimise our impact on the environment and improve our overall performance. Those policies reduce the price of our services:

1. **PAPERLESS OFFICE:** we operate fully with digital documents and have virtually eliminated the use of paper. We transfer almost all our data digitally and store our documents on backed up HDD drives
2. **WASTE MANAGEMENT:** we apply strict programmes regarding the recycling of bottles, cans, card boards. We appropriately work with local recycling organisations to minimise waste
3. **LOW CONSUMPTION:** we use low consumption electric appliances to reduce our energy consumption. Low dim lightscreens, cooled down computers, dark screensavers
4. **ENERGY:** We naturally ventilate our offices; we make appropriate use of daylight to reduce our electric consumption. We use no company car and encourage the usage of public transports
5. **DIET:** We recommend healthy low calorie diets and offer hydrating mineral drinks instead of caffeine based beverages

## Company Values:

These are the values that define us as a company and we promote at all cost:

1. **COMMERCIAL:** we are about growth and profit and the opportunities those things brings
2. **RESPONSIBLE:** we take great interest in developing socially conscious programmes
3. **ENTREPRENEURIAL:** we are an independent company set up from scratch and we chase opportunities
4. **HUMBLE:** humility is a matter of self respect and is key for cohesion among the members of the company
5. **INTEGRITY:** we value honesty and only work with people who are committed to help their peers
